MUREX ARGO —
RAREST OF LARGE SHELLS

Dear Sr. Basave:

I am glad to know you received the shells. Your earlier note of acknowledgement must have gone astray.

I wonder if you can give me any information in regard to my granddaughter, Conchita (Consuela) Cintron, the matadora.

I have had no word from her for a year and in her last letter from Portugal she said she was planning to make a farewell trip to Mexico and South America and would stop in here to see me. Recently I heard indirectly that in her last fight she was very badly injured. I have always been afraid she would be killed or crippled, especially as she was over 25 and had put on weight. Knowing her as intimately as I do, I think she would feel ashamed to write to me admitting my warnings had come true.

I have an idea that you may be able to give me some definite information as I imagine that some of the Mexican periodicals, such as "Sol y Sombra" (if still published) would very likely print any item regarding her, or that some of the torero officials would know about her. I shall be most grateful for any information you can give me.

Sincerely yours

A. Hyatt Verrill
