Dear Sir,

I remember from our conversation at my visit in Guadalajara that you were anxious to receive an autograph of the celebrated authoress Dr Selma Lagerlöf, and after coming home I asked her for one. Now I am very pleased to say that she has sent me not only an autograph for you but also her signed photograph and as I am sure that you would like to have that too, I enclose both and should be much obliged to have a line stating the receipt of these things.

With all your kindness to me and  
your nice company in best remembrance  
I remain

Yours faithfully
