My dear Dr. du Solier:

Many thanks for the very valuable paper on the pottery of El Tajin which reached me a few days ago and which I have read with great interest and satisfaction. I wish I might have had it before sending my report on the excavations at Kaminaljuyu to press as it contains much of comparative significance.

I hope to be in Mexico some time during the coming winter or spring and to have opportunity of discussing some of the problems you raise. I am also very anxious to see some of the sherd material.

With renewed thanks and kind personal regards,

Very sincerely,

A. V. Kidder
