

NATIONAL RESEARCH COUNCIL  
2101 CONSTITUTION AVENUE, WASHINGTON, D. C.

Established in 1916 by the National Academy of Sciences under its Congressional  
Charter and organized with the cooperation of the National Scientific  
and Technical Societies of the United States

August 7, 1939

My dear Mr. Du Solier:

The National Research Council is preparing the second edition of an "International Directory of Anthropologists," to include under each name the information requested on the enclosed blank. We shall be very grateful if you will fill out this blank and return it to us as promptly as possible.

It is hoped that this second edition of the directory may list, as nearly as possible, the names and records of all anthropologists, young and old; -- those working in the fields of cultural anthropology and ethnology, physical anthropology, and prehistoric archaeology. We have corrected many errors and omissions in the first edition, and hope to eliminate still others. If you know of anthropologists besides yourself whose names were not included, we would appreciate very much receiving their names and addresses. The Directory will probably be issued in December of this year, so if you are planning to change your address before that time we should have the new one.

Thanking you again for your cooperation, I am

Yours very sincerely,

*Marion Hale Britten*

Secretary, Division of  
Anthropology and Psychology
