Declaration of Authorship

I, Matías José Lobo Zegers, declare that this thesis titled: "Hybrid GelMA-Turnip mosaic virus (TuMV) scaffolds for enhanced fibroblast proliferation: Effect of EGF conjugation on the TuMV surface" and the work presented in it are my own. I confirm that:

• This work was done wholly or mainly while in candidature for a research degree at this University.

• Where any part of this thesis has previously been submitted for a degree or any other qualification at this University or any other institution, this has been clearly stated.

• Where I have consulted the published work of others, this is always clearly attributed.

• Where I have quoted from the work of others, the source is always given. With the exception of such quotations, this dissertation is entirely my own work.

• I have acknowledged all main sources of help.

• Where the thesis is based on work done by myself jointly with others, I have made clear exactly what was done by others and what I have contributed myself.
