Dear Dr. DuSolier:

Your paper, "Sistema De Entierros Entre Los Huastecos Prehis-  
panicos" arrived last week and has become a valuable addition to our files.  
Many thanks for sending me a copy.

We hope to be moving into our new quarters by next fall and will  
have considerably more room for laboratory and storage space at that time,  
as well as having all our exhibits under one roof instead of in various  
buildings on the campus. We expect to have a rather gala opening and dedi-  
cation service when we move into our new place and will send you an invita-  
tion to attend, hoping that you will be able to come.

With best wishes for continued success.

Yours sincerely,
