Introduction and Program Title

WUN Research Projects: Annual Report for 2022

Please update your WUN Research Project achievements for the **2022 calendar year** by completing this short online survey.

ACTION: We ask that you complete and submit this report and survey NO LATER THAN, 28 February 2023 at 17.00 UK time.

Due to annual reporting obligations, extensions to this deadline will not be possible.

We thank you for your collaboration, and look forward to learning about your accomplishments.

Data Use*

Any information gathered through this online survey is handled and stored securely in accordance with WUN's Privacy Policy. The online survey provider does not claim ownership of survey data and will not share or sell your information, nor will WUN sell your data. This information may be retained indefinitely for a historical record and to the track progress of our WUN associated research programs.

WUN may share the information contained in your report with WUN member representatives (such as Presidents, Vice-Chancellors, Coordinators, other WUN academics, etc) to compile and share accomplishments, build further research partnerships within the Network, and to monitor WUN membership impact. The achievements listed in your report may be promoted in WUN news stories and annual reports made available to the public.

I understand and choose to proceed with this report.

OTHER NOTEWORTHY OUTPUTS

Please provide details of any other noteworthy outputs in 2022 (e.g. student exchanges, joint supervision, joint degree, etc.).

The project developed 10 online seminars regarding the use, development and identification of open educational resources and inclusive education. The recording of these seminars remains as open access on the official website of the project as an open educational resource for Spanish-speaking and Anglo-Saxon audiences (<https://www.wununesco.world/>); this through YouTube (<https://bit.ly/3ICu52C>) and the institutional repository of Tecnológico de Monterrey (<https://bit.ly/3pqCyyj>).

Project Evolution

Has your project adapted or evolved in unexpected ways?

We delivered ten wonderful webinars, thank you very much for this great contribution to open education. With a training reach of 953 registrants, 526 answered the first survey, and 253 certificates were awarded to those who covered at least 8 webinars and answered the initial and final instrument. Certificates have already been sent to those who passed.

The project evolved adequately and was scaled through the "Community STEAM-OER-LATAM" project (<https://www.oer-steam.world/>), which seeks to cooperate and facilitate the transition of the RED STEAM Latam towards the STEAM-OER-LATAM Community.

Project Finances

Project Finances*

Please check the box that describes your expenditure of WUN RDF award funds in calendar year 2022.

RDF funds were spent in accordance with the budget proposed in the project application.

Provide details

If your answer to the question above was "RDF funds were spent in ways that differed from the budget proposed in the project application," please use the box below to explain/provide further detail.

If you chose either of the other two options, you should skip this question.

Program Status

Update on the status of your program*

Is this a continuing WUN collaboration? (Will it continue into at least 2023?)

Yes
